

PILLAR GROUP

Environmental Policy

【Principal】

Recognizing that environmental issues are a challenge common to all mankind, PILLAR GROUP is aware of its social responsibility as a corporation, and as a good corporate citizen, we are actively working to preserve the global environment. We will also contribute to the development of local communities, aiming for the sustainable development of society and our business.

(1) Compliance with laws and regulations

In addition to complying with domestic and international environmental laws and regulations, we pledge to establish and adhere to our own voluntary standards that take into account the needs of society.

(2) Development of products that contribute to environmental protection

As a manufacturer of fluid control equipment, we develop technologies and products that contribute not only to improved performance but also to the emergence of a society committed to sustainability through environmental protection initiatives.

(3) Controlling environmental pollution in our business operations

We strive to prevent pollution and protect the environment by reducing the amount of waste generated, recycling the waste generated, reducing the use of environmentally hazardous substances, while complying with pollution control regulations intended to protect the environment.

(4) Improvement of environmental management system

Recognizing the environmental impact of our business operations, we strive to continuously improve our environmental management system.

(5) Collaboration and cooperation with stakeholders

We expand our environmental conservation activities and meet the expectations of society, in collaboration and cooperation with stakeholders.

Adopted on April 1, 2024

Partially revised on July 1, 2024 (Revised due to company name change)

ONO, Masanobu

【FY2024】 Executive Officer in charge of Environment
